Paul Weiler

N.B.:

In the now (1973 - 2023) 50 years of ITF affiliation I have travelled to more than 70 countries worldwide in the name of TKD and participated in all World Championships and World Cups since 1988.

I had a very good relationship with General Choi, Hong-Hi, who realised that I had put TKD in Germany into structures since 1989 and reorganised the association.

Africa was and is my heart's desire and more challenges await, especially in Asia. Nevertheless, in the last four years I have turned my attention to Central and South America, because there is also great potential there.

To develop Asia will be the main future project!
