3. SCOPE OF WORK

We are looking for a partner for the time until October 2027 with the option for renewal after the next elections at that time.

We require an end-to-end solution divided into three strategic pillars: (i) managing the ITF's social media ecosystem including moderation, (ii) producing of content, and (iii) and providing performance audits. The core ideas for the four pillars are listed below:

Pillar I: Strategic Ecosystem Management

- **Omnichannel Presence:** Primary management of Facebook, Instagram, YouTube, and LinkedIn including moderation of comments and direct messages (DMs) to foster a safe and respectful "DoJang" online.
- **12-Month Master Strategy:** A data-driven roadmap including persona mapping, seasonal campaign planning, and a global content calendar.
- **Tone of Voice (ToV):** Establishing a multilingual ToV that is authoritative yet inspiring, respecting the hierarchy of the martial art.

Pillar II: High-Fidelity Content Production

- **Visual Identity System:** Development of a "Digital Brand Book" for ITF's social media (typography, motion design language, color theory) based on the ITF Branding Policy (available at https://itftkd.sport/wp-content/uploads/2024/01/20240128_Branding_Policy_approved.pdf).
- **Multilingual Content:** Full copywriting and asset localization in English and Spanish

Pillar III: Growth, Analytics & Community

- **Performance Audits:** Comprehensive monthly BI (Business Intelligence) reports with actionable insights covering the various social media activities.
- **Optional:** Establishing an Influencer/Ambassador Program leveraging top ITF athletes as brand ambassadors to expand reach.

4. PARTNER QUALIFICATIONS

- **Scale:** Proven experience in managing accounts with **>50,000 highly engaged followers**.
- **Domain Expertise:** Deep understanding of ITF Taekwon-Do, e.g., key elements of the competition system including patterns, sparring, team events, breaking, etc. Proposals disregarding the martial arts context and its communication among hierarchies will be disqualified.
- **Technical Stack:** Mastery of Adobe Creative Suite, Meta Business Suite, and advanced social listening tools (e.g., Brand24, Sprout Social).
- **Linguistic Depth:** Native or near-native proficiency in English and Spanish within the core creative team.

5. KEY PERFORMANCE INDICATORS (KPIs)

The success of the partnership will be audited against jointly agreed upon KPIs. The proposal should contain suggestions for main KPIs which will be detailed and finalized at the beginning of the contract (i.e. within the first active month).

6. PROPOSAL STRUCTURE & SUBMISSION
